

A woman with long dark hair, wearing a vibrant red long-sleeved blouse and black leggings with a subtle shimmer, is sitting on a wide-plank wooden parquet floor. She is barefoot and looking towards the camera with a gentle smile. The floor is made of light-colored wood with a prominent grain pattern. In the background, a dark grey wall and a glimpse of a bar area with glassware and a metallic container are visible.

RQUET – A KIND

WELCOME TO HARO

Company management in
the fourth and fifth generations:
Peter Hamberger and
Dr. Peter M. Hamberger

Founded in 1866, our family business has a tradition in woodworking that goes back more than 150 years. With our love for natural wood, our high quality standards and an appealing focus on design, we have evolved into Germany's leading parquet manufacturer. And this is why we have succeeded in inspiring people in over 90 countries all around the world with our floors of the HARO brand. As a family-run business with a long-term focus, the commitment to sustainable action is a natural part of our corporate principles. Based on these values, we have developed a range of innovative products from which you can choose your dream floor. We are delighted to inspire and convince you with our passion for natural parquet flooring.

HARO PARQUET *ONE OF A KIND*

WHAT MAKES HARO PARQUET SPECIAL?

QUALITY

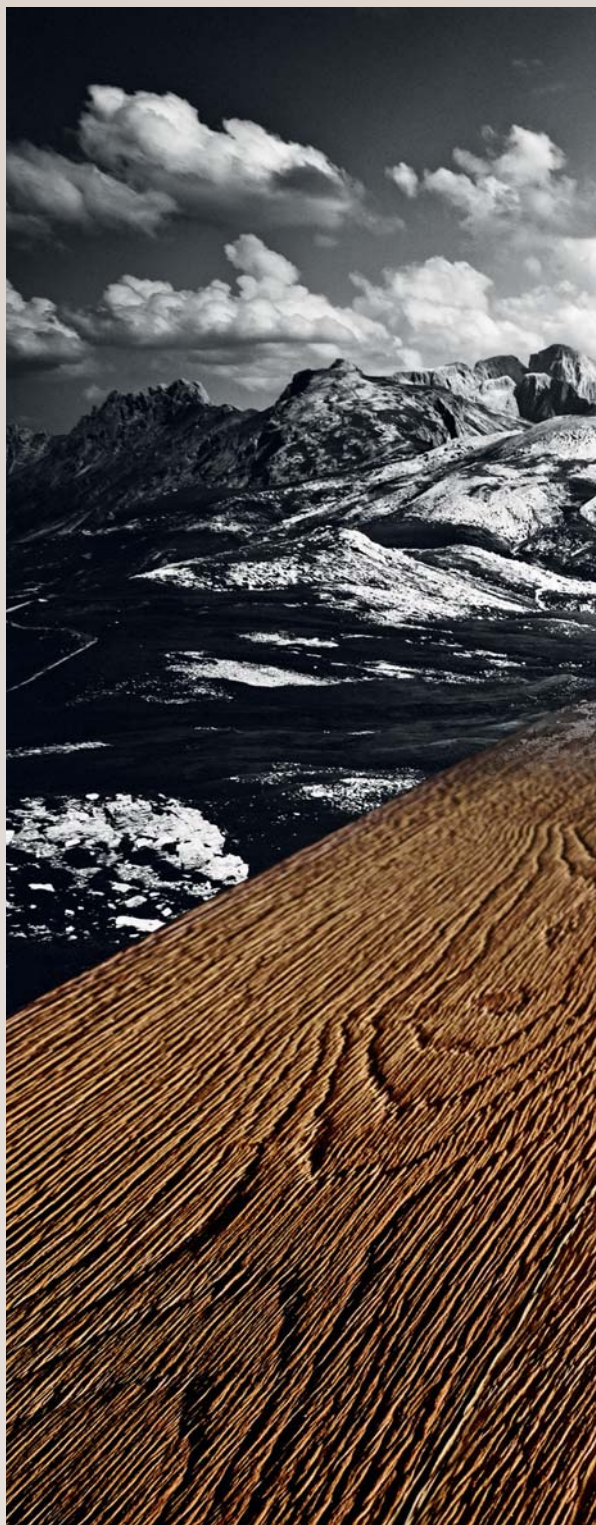

HARO began producing premium quality wood products more than 150 years ago. This deep experience and expertise is at the heart of every single parquet board and allows us to create parquet with a consistently high quality. This is why we offer up to 30 years warranty, giving you the assurance that you have chosen the right floor.

BEAUTY

Thanks to our wealth of experience working with wood, we know how to process and refine it in a way that highlights and emphasises the beauty of this natural product. This is complemented by innovative brushing processes and natural-looking finishes, which enhance the natural beauty of our parquet floors.

EASY TO CLEAN

HARO PARQUET is straightforward and easy to clean and care for. To maintain the timeless beauty of our parquet, dry cleaning with a vacuum cleaner is sufficient. If required, it can be wiped with a damp cloth using our clean and green series, which is specially adapted to our parquet flooring. Quick and easy.

HARO PARQUET QUICKFINDER

SELECTION CRITERIA FOR YOUR HARO DREAM FLOOR

The selection of HARO Parquet Floors is exceptionally large. But you will quickly find your dream floor – by classifying the range according to four selection criteria, you can easily choose your dream parquet from HARO. You can be certain to have made the right choice.

"WITH THE HARO PARQUET QUICKFINDER,
I CAN FIND MY WAY AROUND THE DIVERSE
RANGE IN NO TIME AT ALL."

BROWN

PL

NL

n+

The entire parquet range is divided into four colour worlds: White, Natural, Brown, Grey. Choose your new floor from the colour world you find most attractive.

Would you prefer a vibrant or a harmonious floor? The different designs Longstrip, Plank 1-Strip and Plank 1-Strip Plaza leave nothing to be desired!

The style of the floor strongly influences the impression of the room. The division into quiet, elegant floors and vibrant, rustic floors will help you choose.

The choice of surface finish determines the visual impression of the floor as well as its durability.

HARO PARQUET QUICKFINDER COLOUR WORLDS

HARO TIP: THE COLOUR OF THE FLOOR HAS A STRONG IMPACT ON THE ROOM'S ATMOSPHERE

The HARO Parquet Floor range has a vast variety of colours. Each shade creates a different spatial impression: With light parquet, for instance, rooms appear larger than with a dark floor. Conversely, a dark floor can form an attractive contrast to a sober, modern interior design and give even large rooms a cosy ambience. Colours such as white or grey, which are rather unusual for wooden floors, can create an entirely new room ambience.

BROWN

"NOW I CAN GET JUST THE RIGHT SHADE OF
MY FAVOURITE COLOUR."

BROWN

GREY

HARO PARQUET QUICKFINDER DESIGNS

HARO DESIGN: PARQUET DEFINES INTERIOR DESIGN

The board formats and the designs of HARO Parquet also have an effect on the ambience of a room. The floor plan and room height hardly play a role. What counts is personal taste: Which spatial effect do you want to achieve? Do you want the room to feel calm or vibrant? Bigger or smaller? Natural or modern? Which style do you want in your home?

"IT FEELS FANTASTIC WHEN
A ROOM BECOMES A HOME!"

BROWN

PL

NL

n+

How to find your way around the product pages:
The format symbol indicates which board design you have selected.

LS

*Longstrip Floors
make rooms
more vibrant*

- Three adjacent elements
- Dimensions: 180 x 2200 mm (7 7/32" x 86 5/8")

PL

*Plank 1-Strip Floors
convey spaciousness
and tranquility*

- Dimensions: 180 x 2200 mm or 173 x 2200 mm (7 7/32" x 86 5/8" or 6 13/16" x 86 5/8")

PLAZA

*PLANK 1-STRIP PLAZA FLOORS
impress with a board width
of 240 millimetres –
especially in large rooms*

- Dimensions: 240 x 2200 mm or 220 x 2200 mm (9 7/16" x 86 5/8" or 8 21/32" x 86 5/8")

HARO PARQUET QUICKFINDER LOOK

NATURAL OR ELEGANT: HARO ALL ALONG THE LINE

The elegance and character of a HARO board is, above all, shaped by nature. Then HARO adds the final touch with selected gradings and their classification into categories:

From "quiet to distinguished" with the ELEGANT LINE, and from "natural to wild" with the NATURAL LINE.

It is easy to find the style that perfectly matches your ideas and the design concept of your home.

"THE LOOK OF MY PARQUET FLOOR REALLY
SUITS MY PERSONALITY."

BROWN

PL

NL

n+

How to find your way around the product pages:
This symbol indicates the grading of the floor.

ELEGANT LINE

The floorboards convey elegance and tranquillity. They have few knots and are characterised by a subtle grain.

NATURAL LINE

Rustic features such as knots and cracks are explicitly desired here.

They shape the floor's vibrant character:

The boards have an authentic appeal.

HARO PARQUET QUICKFINDER SURFACE FINISHES

THREE SURFACE FINISHES BY HARO – WITH UNIQUE PROPERTIES

The finish of a surface not only emphasises the natural beauty of a parquet floor, HARO's surface treatments also preserve the floor's natural radiance and offer reliable protection with little effort.

With the three HARO surfaces permaDur, naturaDur and naturaLin *plus*, you can customise your parquet according to the type of use and in line with the desired appearance.

permaDur
HIGH FINISH

The permaDur finish is a high-quality varnished surface with an elegant, satin-matt shine. Its surface impresses with exceptional durability and easy maintenance.

"MY DREAM PARQUET – IT SUITS MY STYLE IN EVERY SENSE!"

BROWN

PL

NL

n+

How to find your way around the product pages:
With our surface symbols, you always have a clear picture of the visual impact of your floor and the maintenance it requires.

naturaDur
MATT SURFACE FINISH

The revolutionary premium surface finish naturaDur impresses with its beauty. The soft sheen and natural feel of an oiled surface, combined at the same time with the durability of a special varnish, protects the parquet floor against signs of wear and tear and makes maintenance and cleaning even easier.

naturaLin^{plus}
NATURAL OIL FINISH

The breathing natural oil surface of naturaLin plus perfectly sets the scene for the natural character of a parquet floor. The oil penetrates the wood, protects the parquet and gives it a unique matt look and a natural feel. An additional benefit: The surface is particularly easy to clean.

HARO *ROOM VISUALISER*

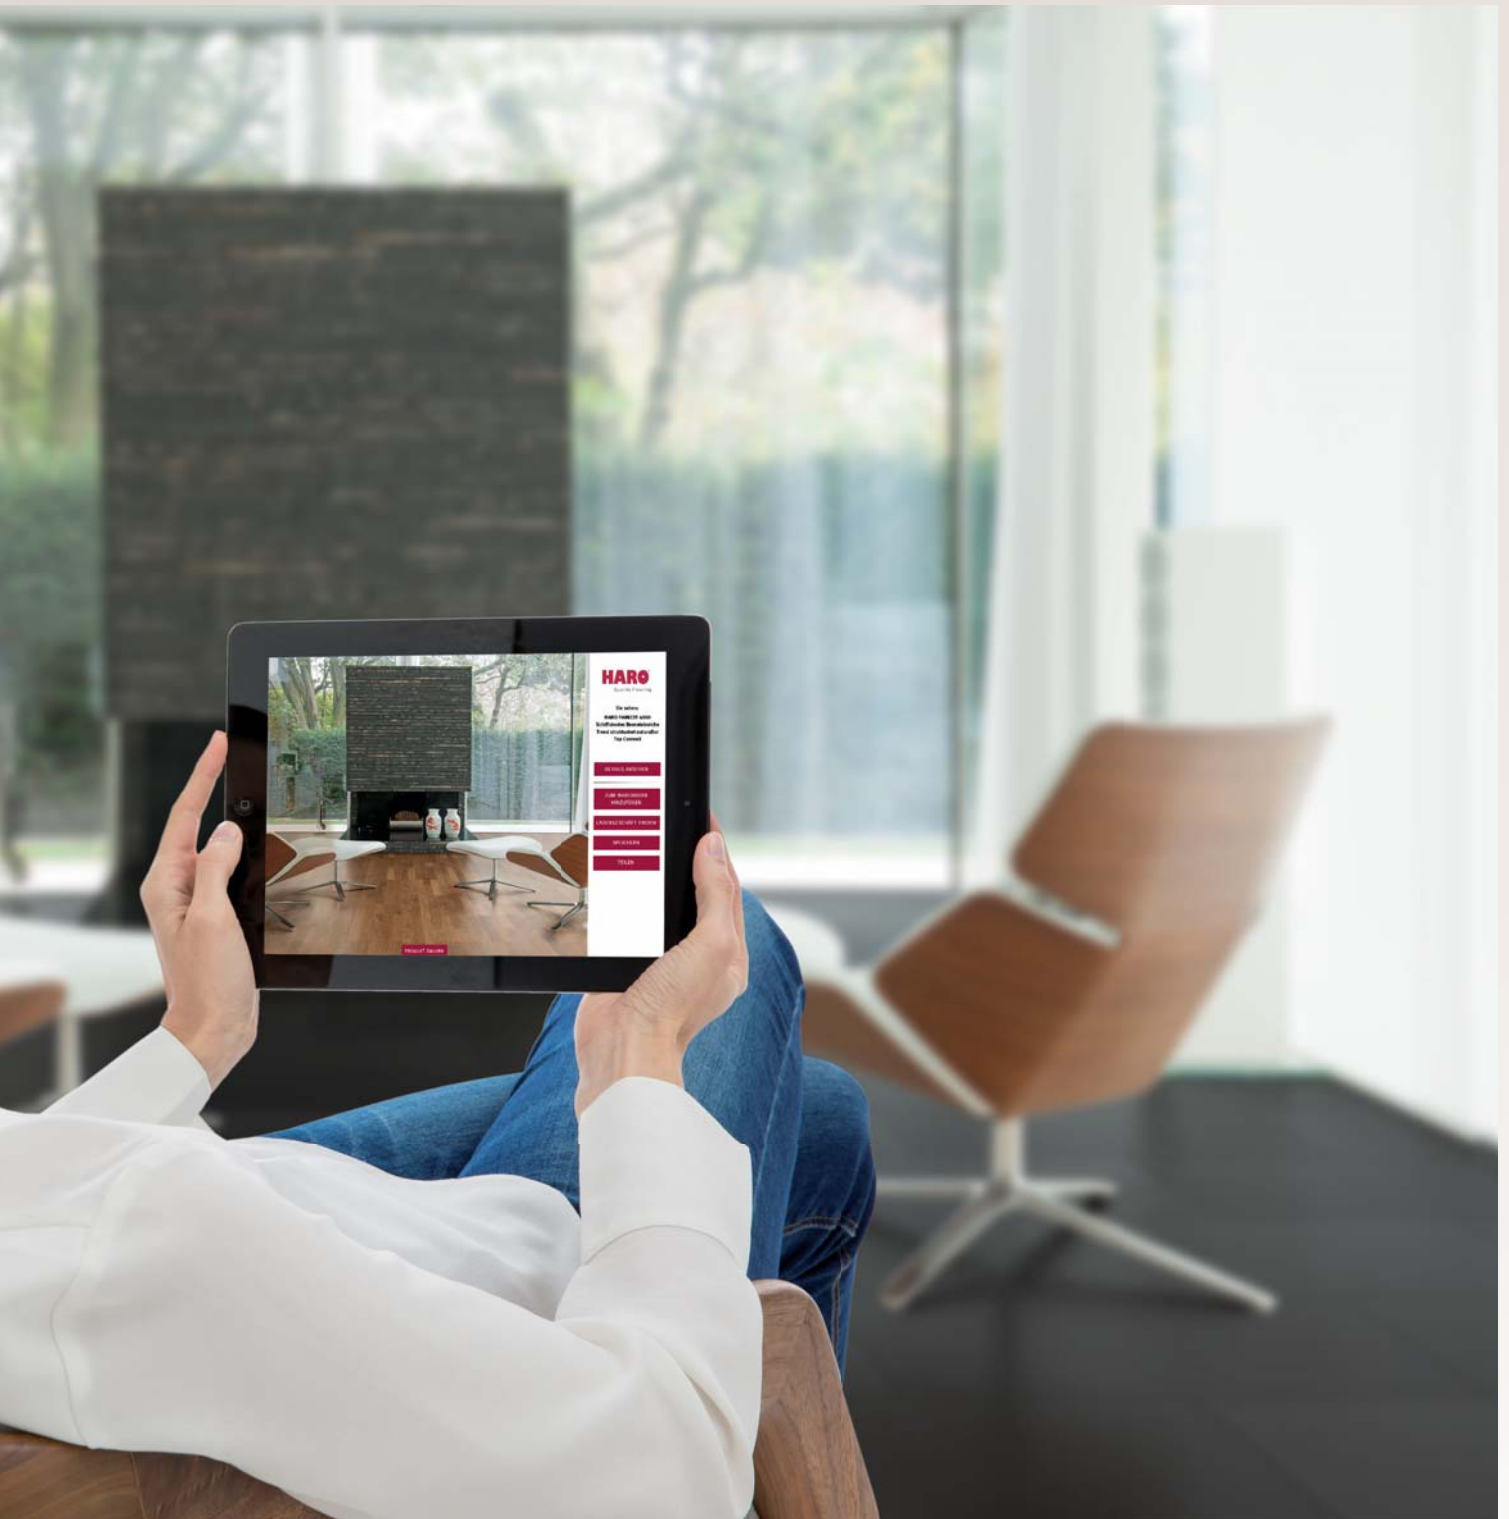

EXPERIENCE HARO FLOORS IN YOUR OWN HOME WITH 1 CLICK

The new HARO Room Visualiser enables you to select high-quality HARO Parquet Flooring on your tablet or smartphone in the comfort of your own home. You can install any HARO floor virtually in your own living room with just one click.

parkettmanufaktur by HARO is the epitome of the high art of parquet craftsmanship. Selected fine woods are processed into unique premium parquet floors and are then finished by hand, creating extraordinary floors for an exquisite style of living.

UNIQUENESS AS A TRADEMARK. parkettmanufaktur by HARO stands for tradition, quality and special values. Selected wood is processed into special parquet floors. A variety of unique parquet floors can be created out of Vintage Oak, XL boards, and Carré boards made of

extra-hard cross-grain wood. They are then refined by hand to make exquisite and unique floorboards. As a finish, we use oleovera, a natural oil that penetrates deeply into the wood texture and ensures decades of beauty and ideal protection of the parquet's surface.

HARO INTERIOR

Naturalness is what counts when it comes to the design of modern rooms that radiate a sense of comfort. HARO Interior offers attractive possibilities for using the unique charisma of wood not only for floors, but also for wall design, the panelling of stairs and even for the dinner table.

"WITH HARO INTERIOR, I CAN INDULGE
MY LOVE OF WOOD IN AN ELEGANT STYLE".

HAROWALL

DESIGN WOOD

The current trends in interior design revolve around naturalness and clear room concepts. Partial or complete wall designs with wooden elements are a perfect match. They provide counterpoints for room concepts or emphasise them in a subtle way.

HAROTABLE

UNIQUE AND CLASSY

Precious wood tables made of original HARO Parquet that match your HARO Parquet Floor or create a deliberate contrast - a natural development from Germany's leading parquet manufacturer. Someone who knows what a stylish parquet floor looks like also knows which table would match.

HAROSTAIR

IN-DEPTH DETAILS

With HARO Stairs, you have the possibility of fully integrating a staircase into your room concept. A coherent, harmonious and elegant room impression can be created by using the same parquet as on the floor.

HARO INTERIOR

Create accents and use the natural authenticity of brushed wood surfaces for an extravagant interior design.

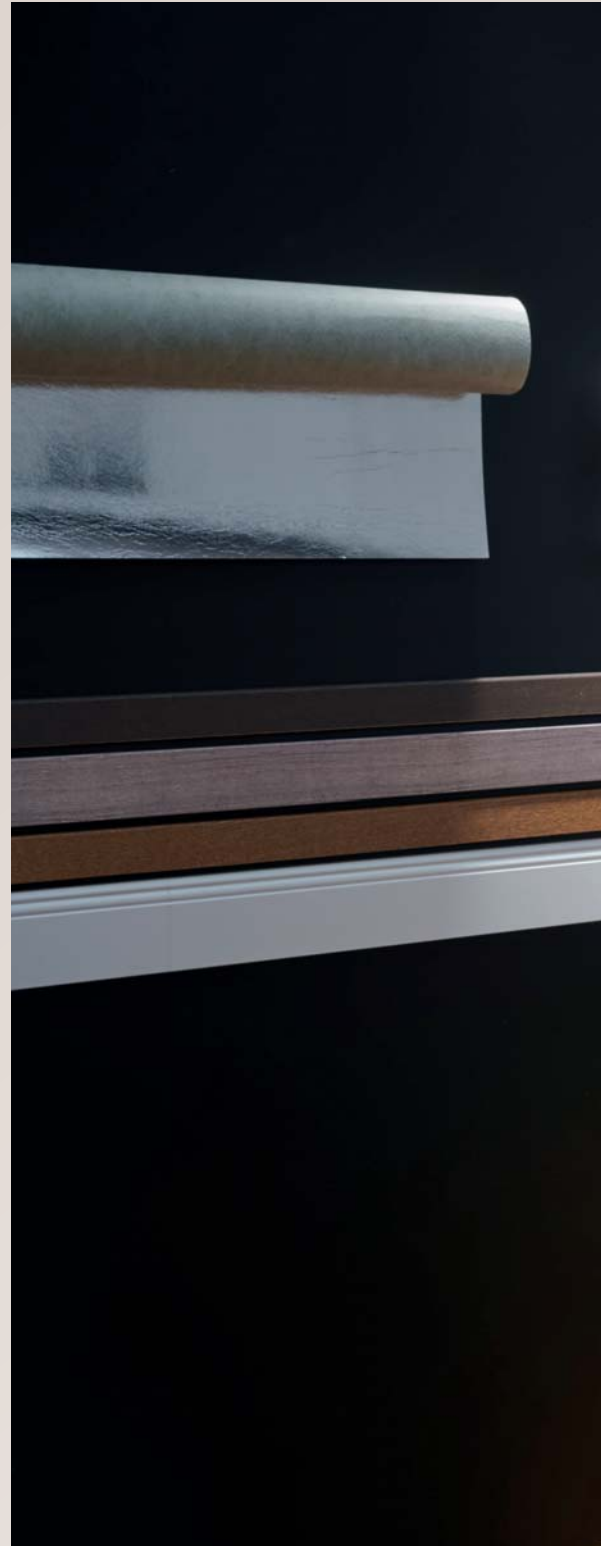

HARO ACCESSORIES

HARO ACCESSORIES ALWAYS MATCH. HARO not only offers beautiful, high-quality parquet floors that are easy to maintain – we also offer the matching accessories for your parquet floor. Manufactured in the same quality and perfectly matched to the look and characteristics of your parquet floor – for a better feeling when you restyle your home. From skirtings to insulation underlays – we offer a wide selection for every requirement from a single source.

SKIRTINGS/MOULDINGS

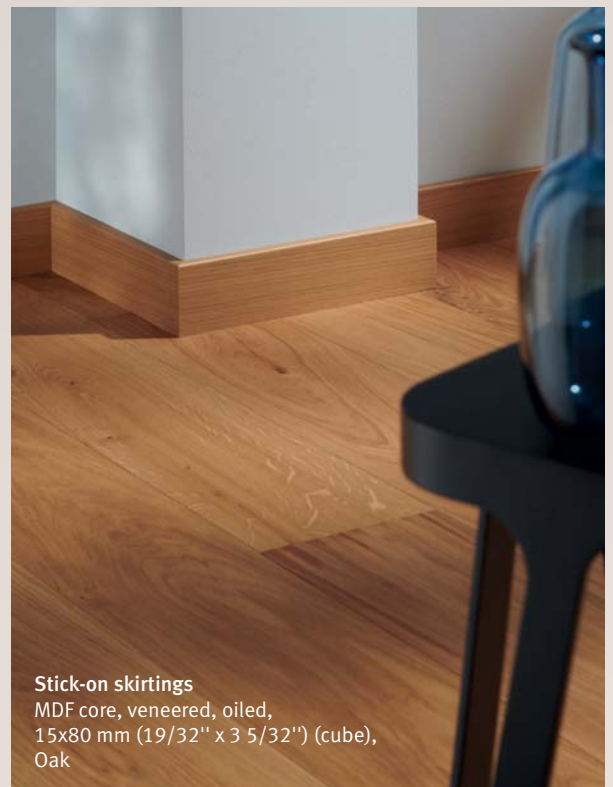

Stick-on skirtings

"OFTEN, IT'S THE LITTLE DETAILS THAT
MAKE A BIG DIFFERENCE."

With the matching skirtings, your parquet floor gets the perfect visual finish. They are manufactured with the same care and attention as our parquet floors. You have the possibility to create a well-rounded look or set contrasts – even in white.

14 x 14 mm (9/16" x 9/16")

16 x 40 mm (5/8" x 1 9/16")

19 x 39S mm (3/4" x 1 17/32")

19 x 39 mm (3/4" x 1 17/32")

19 x 58 mm (3/4" x 2 9/32")

16 x 58 mm (5/8" x 2 9/32")

15 x 80 mm (19/32" x 3 5/32")

MOULDINGS

If the parquet floor is installed floating, transitions often cannot be avoided. Our transition mouldings elegantly join parquet floors or even different floor coverings to create a harmonious surface. They are designed in such a way that different height levels can be levelled out during the installation. If parquet is installed with glue-down installation, mouldings are only needed for the transition to another floor surface.

STAIR NOSINGS

"IN THIS COMBINATION, MY PARQUET
FLOOR AND THE STAIRS BECOME A
BEAUTIFULLY SHAPED UNIT."

Staircase panels made from the same wood as your parquet floor create harmonious looking units within a room. For this purpose, we make customised treads, risers, stair nosings and side panels that fit precisely. For a masterful look that connects rooms.

Stair nosing with
short tread

Stair nosing with
long tread

Stair nosing
angled

INSULATION UNDERLAYS

WE GENERALLY RECOMMEND AN INSULATION UNDERLAY FOR ALL HARD SUBFLOORS. They increase the elasticity of the floor, absorb indoor and footfall noise, and level out minor irregularities of the floor.

SILENT PRO INSULATION LAYER

Our Silent Pro insulation layer offers excellent insulation against footfall and room sound. The high elasticity provided by the mineral fillers creates a pleasant “forest floor effect”.

Silent Pro:
Based on PUR with mineral fillers.
Thickness: approx. 3 mm (1/8")
Footfall sound reduction: 19 db
Room sound improvement: 30 %

Silent Pro DS: Additionally with integrated vapour barrier (SD > 100 m). Values like Silent Pro.

INTEGRATED INSULATION LAYERS

We particularly recommend the integrated insulation layer on the back of the board (available for areas over 10 sq.m.). Due to the fixed connection between parquet board and the insulation underlay, an impairment of the insulating effect due to cavities or gaps is avoided. Another advantage: Installation and insulation are carried out in one single work step.

LOOSE INSULATION UNDERLAYS

It is very pleasant, when the sound level in the room is perceptibly reduced.

INDOOR SOUND REDUCTION 30 %*

FOOTFALL SOUND REDUCTION 19 DB**

The fact that your steps do not sound like thunder will be especially pleasing for your neighbours.

* Maximum individual values achieved in accordance with the EPLF Impact Hammer test (compared to reference floor)

** In accordance with DIN 140-8

"YOU CAN'T SEE IT, BUT YOU CAN FEEL
THE EFFECT WITH EVERY STEP."

SELECTION OF FURTHER INSULATION UNDERLAYS

Silent Double Fix

High-quality insulation layer with decoupling function. Specially developed for glue-down installation on both sides.

Silent Eco DS

High-quality acoustic mat with excellent footfall and room sound properties. Made of ecological material.

Silent Energy DS

High-quality sound insulation underlay with integrated vapour barrier. Perfect for use with underfloor heating.

Silent Pro DS

The premium product for the best possible sound conditions and a high level of walking comfort – with integrated vapour barrier.

UNDERFLOOR HEATING/ UNDERFLOOR COOLING

Thanks to its low thermal resistance, HARO PARQUET is perfectly suited for installation over underfloor heating and cooling.

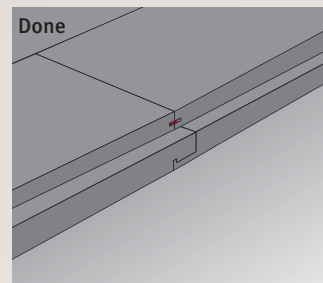

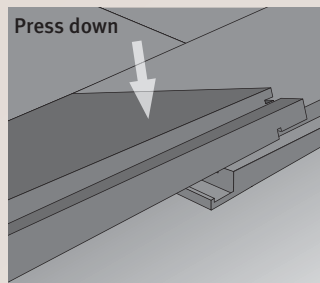

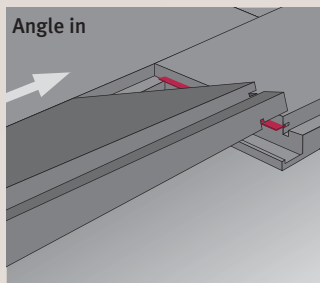

INSTALLATION

INSTALLATION SYSTEM

5G Fold Down locking system

TOP RESULTS WITH TOP CONNECT

Professional installation for everyone - easier and quicker than ever before.
Top Connect is probably the world's easiest installation system. Your quality floor from HARO can be installed entirely without tools and in no time - if you move house, you can take it out again just as easily.

- Very quick to install
- High-precision system for professional results
- Easy to put in, easy to take out
- Secure connections at the joints on the short and long sides
- Suitable for glue-down installation

Floor Care aqua shield

Durable refurbishing and
protection of prefinished parquet.

"LIVING IN GOOD STYLE WITH A FLOOR THAT IS EASY TO CLEAN GIVES ME TIME FOR THE IMPORTANT THINGS IN LIFE."

www.blauer-engel.de/uz12a

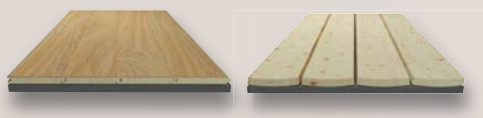

QUALITY THROUGH AND THROUGH

Solid wood floors, as we know them from earlier times, had some enormous disadvantages. Fluctuations in humidity can cause the wood to warp, and uneven subfloors require time-consuming sanding before the installation. In addition, a large amount of wood was needed to produce a small area of flooring. Multilayer parquet from HARO solves these problems in a simple way. The parquet's 3-layer construction with grains that run in different directions reduces the natural swelling and shrinking of the wood by up to 70%. And compared to solid wood floors, multilayer parquet is also the better choice in terms of sustainability, eco-friendliness, and price-performance ratio.

1. **Precious wood layer**, thickness approx. 3.5 mm for Parquet 4000 Series, approx. 2.5 mm for Parquet 3500 Series, made from carefully selected and dried wood
2. **Middle layer** made of solid spruce fingerstrips with a consistent level of moisture, for maximum dimensional stability (in the 3500 Series: HDF-E1 middle layer resistant against swelling)
3. **Softwood backing board** for improved stability
4. **Optional: Insulation layer** for increased comfort for your ears, joints and spine – either integrated or as a loose underlay

moisture protection

3-LAYER CONSTRUCTION SOLID WOOD PARQUET

PERFECT CONSTRUCTION

Wood is a living material and affected by fluctuations in ambient conditions. A solid wood floor shrinks in winter because of the low air humidity, and swells in the warmer, more humid seasons. This causes unpleasant warping, as shown in the illustration. 3-layer HARO PARQUET has been engineered so that these forces have no effect on the floor's beauty and durability.

PROTECTION AGAINST MOISTURE

DON'T GIVE MOISTURE A CHANCE!

Our moisture protection reflects our high quality standards. Our efforts exceed the standard by far. Water drops stay on the surface of our multi-layer parquet, as they are repelled by the impregnated top-layer strip joints on the inside of the board.

BEVEL

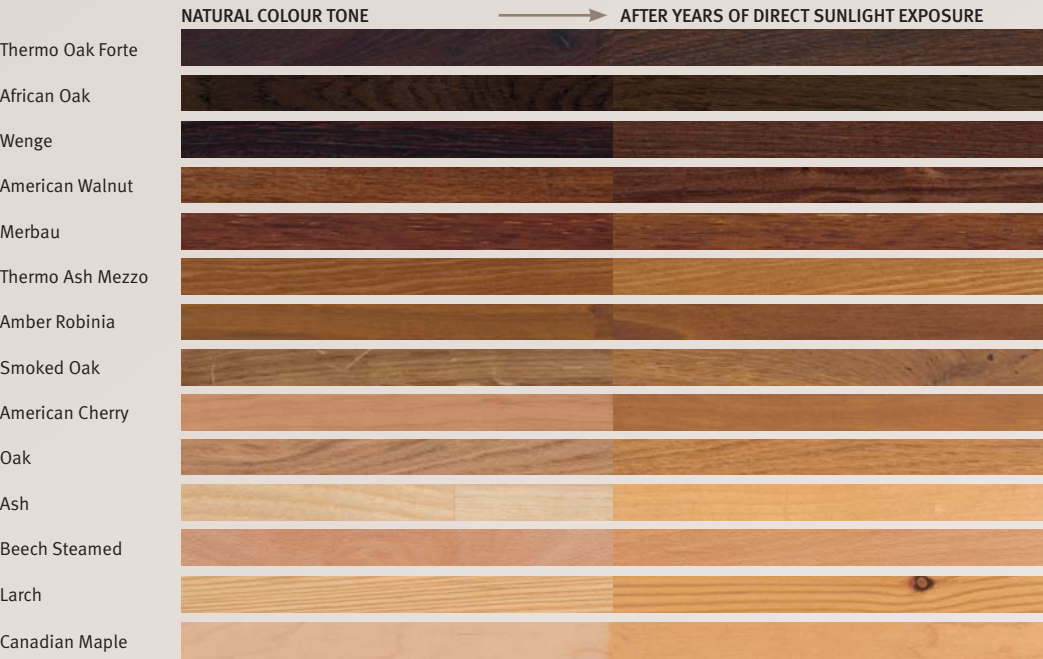

The bevels on the boards create a more distinct appearance.

NATURAL COLOUR CHANGES

WOOD HARDNESS

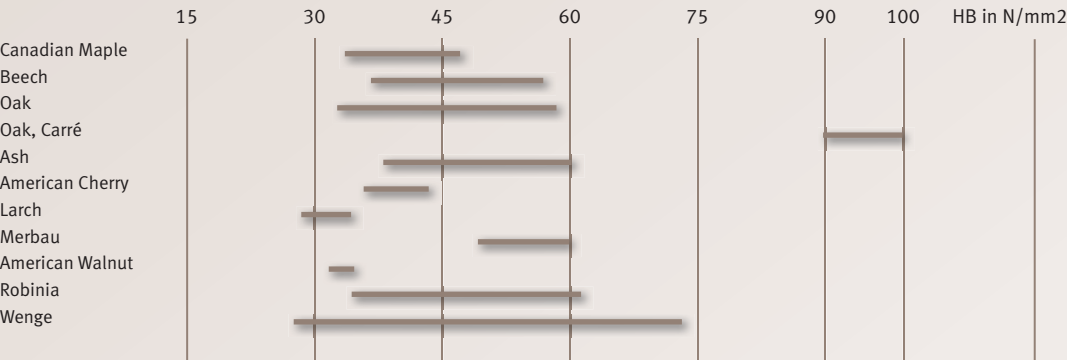

NATURAL COLOUR CHANGES

NATURAL CHANGES

As a living material, wood changes under the influence of sunlight or UV radiation. Light wood gets darker with time, dark wood types tend to lighten. Why is this? It is quite simple: A key wood compound is lignin. It changes the colour of the wood when exposed to sunlight. Under the influence of light, tropical woods can show stronger changes. Merbau tends to change towards a dark brown tone. The wood types with the steadiest colour tones are African Oak, Oak Carbon Black (parkettmanufaktur by HARO) and the colour-refined wood types from our parkettmanufaktur by HARO – almost no changes of colour occur.

WOOD HARDNESS

TESTING WOOD HARDNESS

Hardness is an important criterion for the use of parquet boards. Wood hardness is not given as a single fixed value, but indicated by a certain hardness range that varies depending on the tree's natural growth. It is measured with the Brinell test. In this test, a 10 mm

diameter steel ball is pressed into the wood surface with a specified force and for a specified time. The Brinell hardness number (HB) is then calculated from the size of the indentation left in the wood. The harder the wood, the higher the Brinell hardness number.

RANGE OVERVIEW

GRADES

The grading significantly influences the appearance of a parquet floor. From calm to vibrant, from elegant to exciting and wild – the parquet floor will shape the appearance of your home in a way that matches your lifestyle.

HARO PARQUET LONGSTRIP

TREND △

- Natural wood grain with small pin knots
- Look: Natural, classic, timeless

TERRA □

- Natural wood grain with knots and a rustic look
- Look: vibrant, rustic

FAVORIT □

- Well-balanced combination of subtle and vibrant top layer strips
- Look: Appealing colour variances, vibrant effect

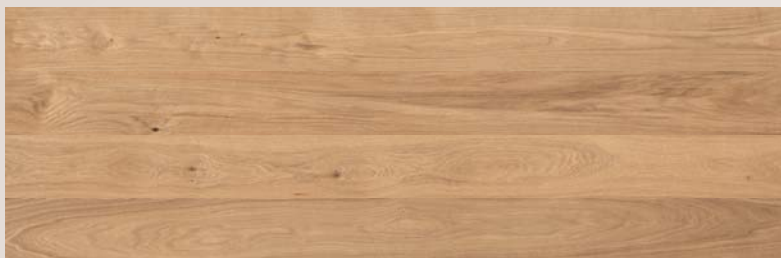

Please note: In some types of exotic wood species, mineral deposits can cause staining on the surface.
△, □, graded in acc. with EN 13489, 4.4,
all others graded in acc. with EN 13489, B

**HARO PARQUET
PLANK 1-STRIP**

EXKLUSIV

- Choice top-layer strips with uniform texture and colour
- Look: Subtle, distinguished, elegant

MARKANT

- Wood grain with natural amount of knots
- Look: Natural, classic, timeless

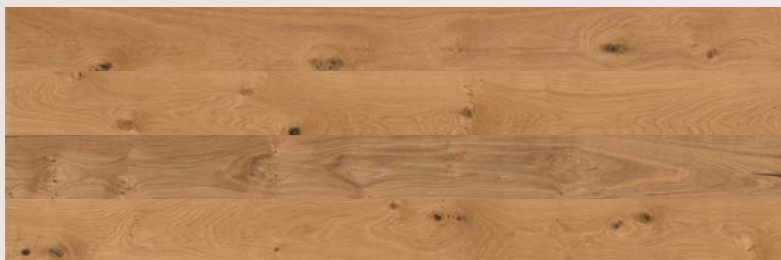

SAUVAGE

- Natural to vibrant wood texture with a greater amount of knots
- Cracks, filled spots and worm holes may be visible
- Look: Trendy, rustic

ALABAMA

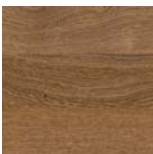

- Lively wood texture with an authentic amount of knots and a greater number of black puttied cracks
- Look: Individual, rustic, authentic

UNIVERSAL

- Combination of our grades including heartwood
- Look: vibrant

CERTIFICATION

The fact that quality is more than just a promise can be seen in our products and their perfectly matching accessories, as well as the numerous certificates we have been awarded. They prove that transparency and diligence are paramount for us when it comes to a healthy living environment and our production processes.

HARO WARRANTY

In addition to the statutory warranty terms, HARO also provides additional warranties for various product groups. Please note the respective warranty conditions.

BLUE ANGEL ECO LABEL

The Blue Angel has certified the environmental compatibility of our products since 1992.

www.blauer-engel.de/uz176

SUSTAINABILITY

Hamberger Flooring GmbH & Co. KG has been PEFC-certified since the beginning of 2004. This guarantees that the wood we use is sourced from sustainably managed forests.

REAL WOOD

Hamberger Flooring GmbH & Co. KG leads the way in implementing the Real Wood Campaign to ensure real wood floors are correctly identified as such.

ISO 9001

Our quality management system has been certified in accordance with DIN EN ISO 9001:2008 since 1995. It secures workflows in the company and consequently contributes to maintaining a consistent product quality.

ISO 14001

With the certification according to DIN EN ISO 14001:2004, we have committed ourselves to active environmental management since 1998.

ISO 50001

The ISO 50001 standard is aimed at supporting companies in establishing processes and systems necessary to reduce their energy consumption and increase energy efficiency.

MADE IN GERMANY

Our quality floors are of the highest-quality German workmanship.

CE

The CE label confirms that HARO floor coverings comply with all essential European safety and health directives.

VDP/FEP

Hamberger Flooring GmbH & Co. KG is a member of the Verband der Deutschen Parkettindustrie e.V. (Association of the German Parquet Industry) and of the FEP, the European Federation of the Parquet Industry.

VOC-Label

The French VOC label certifies that the emissions of HARO Floors are entirely non-hazardous.

PRODUCT VARIETY FROM HARO

In its diversity, wood is a fascinating material. We stand by our passion for wood, using its natural appeal, powerful ambience, and diverse characteristics in our products to create the foundation for stylish living.

DISANO BY HARO
DISANO is not only the perfect solution for modern and vibrant living. DISANO contributes to a healthy living environment and is 100% free from PVC and plasticisers.

HARO LAMINATE FLOORS
Laminate Floors are made of up to 90 percent wood. This means that the positive properties of real wood floors are combined with the technical benefits of artificially produced surfaces.

HARO INTERIOR
With HARO Interior, you can also use the natural charisma of precious wood for wall design and panelling on the sides of the stairs. As a perfect eye-catcher, you will also find our "HARO Table" here.

PARKETTMANUFAKTUR BY HARO
What emerges here from masterful craftsmanship are floors that are unsurpassed when it comes to elegance and uniqueness. With real workmanship, the most precious woods are processed into top class parquet floors.

CORK FLOORS
For decades, cork flooring was found almost exclusively in children's rooms and day-care centres. This was owed to its underfoot warmth and soft surface. We have made it attractive as a true alternative for stylish living.

HARO PARQUET - ONE OF A KIND
